

**SITI MARIAM MOHD NOR****Ph.D. (University of Nottingham)**

SENIOR LECTURER (Dr)  
Department of Chemistry  
Faculty of Science  
Tel-office: 03 89466780  
Fax: 03 89435380  
smariam@upm.edu.my

**EXPERTISE**

Organic Synthesis

---

Dr. Mariam's research focuses on synthetic organic chemistry. She is working on naturally and synthetic active compounds also its derivatives for anticancer and insecticide applications. Major sponsors of her research includes the Research University Grant Scheme (RUGS) and Fundamental Research Grant Scheme (FRGS).

**CURRENT RESEARCH INTERESTS :**

1. Total Synthesis of bioactive natural product.
  2. Development of synthetic methodology.
  3. Synthesis of natural product derivatives or analogues.
  4. Synthesis of cyclic peptides and heterocyclic compounds
- 

**LINK TO POSTGRADUATE FIELD OF STUDY:**

Synthesis
