EXPERTISE

Optical fiber lasers and optical fiber sensors

Dr. Amirah binti Abdul Latif is currently a senior lecturer at Department of Physics, Faculty of Science, Universiti Putra Malaysia. She received her PhD in Photonics and Fiber Optics field in 2013 from University of Malaya, Malaysia. During her study, he worked on the Dual-Wavelength Fiber Lasers, Single-Longitudinal-Mode fiber Laser and Optical Fiber sensors. Currently, she is a joint member of Photonics Laboratory, Department of Physics, Faculty of Science.

CURRENT RESEARCH INTERESTS:

- pulsed output optical fiber lasers
 - single longitudinal mode fiber lasers
 - dual-wavelength fiber lasers
 - optical fiber sensors
 - microwaves and millimetre wave generations
-
